## Elvie Pump (Single)

Elvie Pump is a single-electric, single-user breast pump intended to express and collect breast milk.

**A smart, wearable breast pump designed to be discreet and hassle-free.**

Elvie Pump creates suction using differentiated pump technology, making it virtually silent and reducing the size of the pump housing so that it is small enough to fit inside a standard nursing bra.

The self-contained, closed system pump unit simplifies use and minimises time spent cleaning parts between pumping sessions.

The pump can be connected to a free app to allow the user to control the pump remotely, monitor live milk volume and track their pumping history.

### Easy to use

1. Simply place inside bra

2. Connect to the app

3. Monitor milk volume

MSRP £ 249.00 | \$ 247.00 | € 279.00

### Elvie Pump (Single)

Colour and finish:	White, ABS plastic
Size:	EMEA: H128 x W110 x D75 mm US: H5 x W2.5 x D4.5 in
Weight:	EMEA: 210 g US: 7.4 oz
Material(s):	ABS plastic, Eastman Tritan EX401, food grade silicone, Polypropylene (PP)
Battery:	Lithium polymer, 1450mah
Charging time:	2.1amp charger / 120 minutes
Charging method:	USB cable

### Wearable

**Small and lightweight, Elvie Pump can be used with any standard nursing bra**, making it truly hands-free. It comes with Bra Adjusters to create additional room in the bra.

### Silent

Elvie Pump uses a revolutionary pumping technology that **eliminates unnecessary noise** so that mothers can pump in peace anytime, anywhere.

### Hassle-free

**It takes seconds to assemble and just 5 parts to clean.** No cords, no wardrobe changes, no fuss.

### Smart

**Monitor milk volume in real time**, track pumping sessions for each breast and control the pump using the free app.

### Best fit

**Comes with 2 breast shield sizes and 7 intensity settings** for greater comfort and choice. A third breast shield size is available for purchase as an accessory.

### Responsive

Elvie Pump **automatically switches from Stimulation to Expression mode** when it detects let down.
